

Multi Battery Isolator

ProMariner Battery Isolators with gold-plated terminals and improved efficiency, provide enhanced charging and gives peace of mind by preventing total discharge of the starter battery.

- Charge Multiple Batteries While Preventing Interbank Discharge
- Ground Wire Not Required
- Easy to Install Diode-Based Design
- Insulator Boots for Each Terminal to Prevent Short Circuits
- Versatile System Voltage
- Corrosion Resistant
- Improved Heat Sink Design
- IP67 Rated; ROHS, CE, Prop65 and ABYC E-11 compliant

Model	Part #	Configuration	Max Current
1-70-2	11072	1 alternator, 2 batteries	70A
1-70-3	11073	1 alternator, 3 batteries	70A
2-70-2	12072	2 alternators, 2 batteries	70A
2-70-3	12073	2 alternators, 3 batteries	70A
1-130-2	11132	1 alternator, 2 batteries	130A
1-130-3	11133	1 alternator, 3 batteries	130A
2-130-2	12132	2 alternators, 2 batteries	130A
2-130-3	12133	2 alternators, 3 batteries	130A
